Coming Soon: Easy Rides R24

We have a major new release of Easy Rides in the final stages of testing. This release adds support for our newest product, Easy Rides Starter, a low cost version of Easy Rides for systems with fewer than 10 routes and 10 vehicles. It also replaces the control center with a unified dispatch and planner board letting you get to your routes and rides faster. Watch for more info on the release of this update in the coming week.

System Spotlight: Montrose County Transit,Montrose, CO

Montrose County has only been using Easy Rides for a few months, but they have already doubled their capacity going from about 1400 trips per month to over 3000! They have also switched to live dispatching recording rides as the driver calls them in, saving time entering mileage at the end of the day. Great work Montrose!

Mobilitat holds first ever Users Conference

We held an all day users conference last week in Athens GA. People from 4 counties attended. We discussed backups, MS Access Reports, Logging mileage, and many other tips. Attendees had the chance to talk with other Easy Rides Users and trade notes and ideas. It was a great success and we are already planning future User Conferences.

New Website

We've launched our new website! The new site should be faster,easier to navigate and more frequently updated. Systems are welcome to submit pictures they would like to show on our front page. Check it out at www.mobilitatsoftware.com.

Upcoming Training

We hold monthly online training sessions to show new or little known features of Easy Rides to make your job easier. Here is the schedule of upcoming training events:

- January 10-11: Backups and Disaster Recovery.

- February 21-22: Logging Odometer and Time.

- March: To be Announced.

If you would like to participate or would like to suggest a future topic, please contact training@mobilitatsoftware.com

Tips and Tricks: Trip Note Codes

Have a trip you want to keep your eye on? You can mark a trip with different colors by changing the first character in the trip note. This will make the time for the ticket change on the dispatch board. The symbols and there colors are as follows:

^ Black

< Red

> Blue

* Green

~ Brown
